International Harvester Bid Up in Anticipation of an Increased Dividend.

NEW YORK, February 20.-Opening quotations on the stock market today in most cases showed a decline from Saturday's final figures. Reading, St. Paul and Consolidated Gas each lost a point, United States Steel, 38, and Amalgamated Copper and Union Pacific, 1/2. Missouri Pacific gained 1/4 and Southern Railway preferred, 1/2.

Prices declined further after the opening, but there was an absence of demand at the low level and the market grew dull. International Harvester improved 3 points, with the rise attributed to the expectations of favorable developments at the directors' meeting today.

Trading at Low Ebb.

Speculation was at a low ebb during the morning session. Resumption of sessions of the Supreme Court, with the possibility of decisions in cases of especial interest to Wall street and the increased likelihood of an extra session of Congress. continued to restrain traders, and even at the lower level of prices established there was little demand

The rise of 31/2 points in International Harvester was more than canceled by real zing and some selling on disappointment at the increase in the annual dividend rate to 5 per cent, which was less than had been expected by many. At midday the market was fractionally above the low level. Bonds were steady.

TARIFF BOARD ASSURED OF FUND FOR RESEARCH

The sundry civil bill provides appropriations for every branch of the government, including the necessary money to keep things moving in the Panama canal zone in the fiscal year beginning July 1 next. The failure of the bill would result in the suspension of activities on the isthmus as well as on every bit of public work in the United States. It is apparent, therefore, that neither party will take the responsibility for defeat-

The provision relative to the tariff board is unique in one respect. I makes the appropriation authorized available until expended. It is estinated that the amount allowed-\$400,-000-will keep the board going for two ears. This will make it unnecessary for the administration to ask Congress for an appropriation for the board next winter, when the democrats will be in control of the House. The democrat are opposed to this feature of the tariff board provision, but they realize that Hudson agt. There were rains and snows the middle Atlantic states and Tennessee, and snow in southern New England, New York, Pennsylvania, the lake region, the Ohio and middle Mississippi valleys, the middle plains states and the southern Rocky mountain region.

Temperatures are decidedly lower in all nterior districts between the Appalachian and the Rocky mountains, and freezing temperature is reported this morning as far south as northern Alabama, northern Mississippi, Arkansas and the interior of Texas, while temperatures below zero prevail in the northwest. The indications are that the storm that

is central over the middle Atlantic states this morning will move norheastward and be attended by snow this afternoon and tonight in the Atlantic states north of Virginia, and the lower lake region and the upper Ohio valley, followed by genprobable in the region of the great lakes. The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock market. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of in-dividuals or corporations for their stability and are exempt from taxation as personal property. We can supply such invest-ments in amounts from \$500 upward. Send for booklet, "Concerning Loans and In-vestments."
